Dear Todd,

It is with great pleasure that I contact you today about the new look you have given to our establishment. The facelift shocks me every day I arrive to work because it had been so plain for so long. This is a perfect way to celebrate With Pride's 30th anniversary.

It was interesting to see this work in progress, it looked so easy and yet the design and colors are brilliant! I am especially impressed with the way the grid work tied it all together. I have not seen that design anywhere else and it came out just as you had presented to me.

Recently, the owner of Johnson's Marine, across the street came over, took my hand and told me how beautiful this building is. Mind you, he has been there for many years and I had never met him. I guess he likes his view now.

By the way, your painter, Jack, really enjoyed himself on this project. The creative part of him came out and he looked forward to seeing this building come to life just as we did. When the sign and lettering went up against his paint job, he knew it was a winner.

Thank you for not interrupting our work schedule. Kindest regards to you and your staff.

Sincerely,

Coye Rhinehart
